NetSuite Certification Program Announcement: Annual Maintenance Quiz

Hello All,

We have completed writing the Annual Maintenance Quiz for the 2014.1 and 2014.2 New Features. However, since we are now in the midst of the 2015.1 New Release, it seems out of synch to be releasing a quiz based on last year's news.

Instead, we have decided to share these questions with you in PDF format so you can see what types of questions we planned to ask. Links to the Sneak Peeks and Release Notes that were provided with each release, are below.

We will grandfather all current Certifications through the end of this year, and will release the first Annual Maintenance Quiz in Q4-2015. At that time, we will verify every NetSuite Certified Individual's knowledge of both the current 2015.1 and upcoming 2015.2 new features and enhancements.

Until then, if you wish to see what types of questions we planned to ask, you can review the current questions below as examples.

Happy February, everyone!

2) Certification Numbers now available!

To support the increasing community of NetSuite Certified Individuals, we have now assigned a Certification Number to each Individual + Certified Title. Four announcements today:

1) SuiteWorld buttons:

For those of you attending SuiteWorld, we will be handing out buttons at the SuiteTraining Booth in the Expo center. To claim your button, provide your business card so we can check you off the list. Certified Individuals only, please! Since the buttons are meant for pinning on the SuiteWorld lanyard, we will not be sending any extras after the event. We will keep extras to be claimed at future events.

2) Logo files now available in .eps format:

Due to many requests for this print-ready format, we now have .eps file format versions of the NetSuite Certified ERP Consultant logos for download. Please email us at certification@netsuite.com if you need this file format. Newly certified individuals will receive both the .jpg and the .eps file formats going forward. (NetSuite employees can disregard, internal logo processes are unchanged)

3) For anyone interested, I will be presenting at SuiteWorld on Tuesday, May 13th at 11:30am on "Best Practices: Keys to Successfully Implementing NetSuite". This is very similar to my last 2 sessions, so if you've already seen me present at SuiteWorld. I recommend you seek out new material. Also, since you have all passed the ERP Consultant Exam, I suspect you all know the topics I will address already. Feel free to stop by at the end to say hello, or email me if you want to meet face-to-face. I will also be at the International Partner meeting on Monday.

4) Check out the Certification webpage on Thursday, May 15th at 9:00 am Pacific Time (USA) for other news on our program!

Thanks!
