Sideline Turf Protection

Sideline Turf Protection

Because sports fields come in many shapes and sizes, one sport's penalty area can be another sports bench on the field. The result is large hot spots on your field that can cause serious damage to your turf or running track. Covermaster provides a number of sideline and track covers to enhance field protection for a number of problem areas.

In this brochure, you will find protection for your:

Sideline Track Protector

Gold Edging

White Edging

Crossover-Zone™ track protector is ideal for fields with surrounding running tracks. In time, football teams crossing onto the field can wear out the track. Repairing sections of a track can be a costly endeavour, so your best bet is to prevent any damage before it happens.

The center of Crossover-Zone has a strong galvanized steel chain link perimeter covered by tough, nonabsorbent geotextile material. This combination of strength and lightweight material allows the Cross-Over Zone to stand up to winds while still being lightweight and easy to carry.

- ▶ Light and easy to handle
- ▶ Tough material stands up to steel tipped cleats and shoes
- ▶ Allows rain and other liquids to drain through
- ▶ Wind-proof without steaks or staples

Size Chart*

Width	Length		
7.5'	30'	40'	50'
15'	30'	40'	50'

*Custom sizes available

“ No longer do we have a waterlogged cover damaging our track. It is easy to install, and we don't have to worry about the edges curling up and becoming a tripping hazard. The Cross-Over Zone helps make our stadium stand out ”

-Morgan Nugent, Athletic Director, Lassiter High School, GA

Bench Zone Track

Gold Edging

White Edging

Bench Zone™ Track Protector is designed for facilities with tracks tightly wrapped around their field. Great for adding extra room for your football team without damaging the surrounding track.

Longer protectors come in two sections and can be easily joined with Velcro hook and loop straps. Double-stitched vinyl edging is bright and highly visible.

- ▶ Light and easy to handle
- ▶ Tough material stands up to steel tipped cleats and shoes
- ▶ Allows rain and other liquids to drain through
- ▶ Wind-proof without steaks or staples

Size Chart*

Width	Length			
15'	50'	100'	125'	150'

*Custom sizes available

“ Easy to install and remove, and the built-in edging chain is a great feature to make it wind resistant. The Bench Zone product has been a great addition to our football and track programs

–C. BYRNE, Assistant Athletic Director Moravian College Bethlehem, PA

Bench Zone Turf

Sideline can be a hot spot for damage. Players warming often dig their cleats into the turf and kick up ruts. The Bench Zone™ Sideline Turf Protector prevents damage to turf by utilizing strong polyester VIPOL Matrix material. Folded edges are double-stitched and grommets are installed every 18” for a tight fit and appearance.

- ▶ Protects turf from cleats
- ▶ Liquids drain through, not absorbed
- ▶ Nonabsorbent
- ▶ Sunlight passes through allowing for extended periods of use
- ▶ Custom colors and logos
- ▶ Easy to clean

Size Chart*

Width	Length			
15'	50'	75'	100'	150'

“

I have been with Purdue University for 20 years, and I can say with confidence that the Bench Zone Sideline Turf Protector is the best we have used ”

-Bob Hallas, Director of Outdoor Facilities, Purdue University

Enkamat Plus

Standard Grey

Enkamat Plus is tough polyester fabric bound to a three-dimensional nylon core. It can withstand heavy traffic without crushing or suffocating the turf below. Enkamat sideline matting is designed to meet all professional, college and high-school standard sideline dimensions. Installation is simple and Enkamat can be rolled up for simple storage.

- ▶ Lightweight and flexible
- ▶ Quick and easy installation
- ▶ Multi-use for many sports
- ▶ Reusable
- ▶ Minimal storage space
- ▶ Smooth, walkable surface
- ▶ Easy to clean

//

It simply protects the grass better. It is softer for the players and easy to deploy. Any added expense would be saved in the first year from little or no grass repair //

-Ross Kurcab, Turf Manager, Denver Broncos

Geotextile

Light Green

Grey

Because many football fields are used for soccer, lacrosse and field hockey the benches often fall within the confines of these larger playing fields. Made from recycled polyester fabrics, the 16oz Geotextile sideline covers are an effective and affordable turf protection. Needle-punched fabric allows grass to breathe while the surface is shielded from cleats and seating.

- ▶ Lightweight and flexible
- ▶ Quick and easy installation
- ▶ Multi-use for many sports
- ▶ Minimal storage space
- ▶ Smooth, walkable surface
- ▶ Cost-effective

Huddlezone

A clever invention to protect a small section of your field while organizing your team. Huddle Zone™ is made of industrial matrix fabric with a 3' square for each player.

- ▶ Organize special teams
- ▶ Stands up to steel tipped cleats and shoes
- ▶ Allows rain and other liquids to drain through
- ▶ Wind-proof without steaks or staples
