PROFESSIONAL

ORGANIC PLANT GROWTH ENHANCER

Enhances root and plant growth

Grower's Secret PROFESSIONAL (GSP) is a highly concentrated organic plant growth enhancer made with patented mushroom technology that works to speed the delivery and uptake of nutrients and water.

Use in combination with fertilizers and plant growth supplements for superior plant growth and yield.

Derived from fermented molasses

- Signals plants to grow faster and larger
- Increases yields and shortens crop cycles
- Improves germination, root and foliage growth, flower bloom, and overall plant vitality
- Increases nutrient absorption, vitamin content, water retention, and fertilizer uptake
- Highly concentrated; a little goes a long way (2-4 drops per gallon of water/soluble fertilizer)
- World's only plant growth enhancer made naturally by fungal fermentation
- Fungal metabolite is concentrated, filtered, and heat pasteurized on the island of Maui
- Discovered and backed by PhD's in plant pathology and botany
- Proven in scientific studies

OMRI-listed and CDFA-registered for use on organic food and fiber production, and production of ornamental, landscape and turf

Non-polluting, will not harm water supply

Suitable for use in organic farming
