

Conference phones for every situation

Konftel 60W – The Flexible Conferencing Solution

The Konftel 60W is a conference phone equipped with Bluetooth technology and compatible with any Bluetooth enabled device. With superb sound quality and easy-to-use functions, it also includes cables for connecting to computers and digital and IP phone sets. Uniquely designed, the Konftel 60W is the perfect compliment to the modern office.

KONFTEL FEATURES

- Crystal clear sound provided by OmniSound® technology
- Full duplex
- 2 year warranty

KONFTEL 60W FEATURES

- Wireless connection to devices equipped with Bluetooth® technology
- Connects directly to your Digital and IP phone set
- Can be used with most cordless and cellular telephones (cable required)
- Includes PC connection for IP Softphone applications
- Keypad with volume and mute controls
- Optional expansion microphones

Now you can hold a meeting anytime – regardless of distance and pressing schedules. Konftel conference units are all equipped with the unique OmniSound® feature – optimal sound for natural, crystal clear communication. Konftel telephone conferencing brings people together and is the ideal alternative to travel.

Versatility at Work!

The Konftel 60W connects to all types of telephones making it ideally suited for almost every conferencing requirement. With a range of up to 300 sq ft (30 m²) it can be used practically anywhere in the office where there is a power supply. When additional microphones are added, the Konftel 60W range expands up to 750 sq ft (70 m²).

The Konftel 60W connects to all devices!

Conferencing via your digital and IP phone set. The Konftel 60W will work with most PBXs by connecting to the handset port on your digital phone set. The included switch box allows you to change between speaking hands-free and using the handset at the push of a button, or connect a headset if you prefer. An analog port is not required to use the Konftel 60W. There is no need to re-wire your conference room for analog connectivity.

Conferencing via your cordless and cellular telephone. Your Bluetooth cellular telephone transforms into a quality conference phone when connected to the Konftel 60W. Optional cables to connect cordless and cellular phones to the Konftel 60W are available.

Conferencing via your computer. IP telephony with full duplex! The Konftel 60W can be used with computers (PC/MAC) equipped with IP telephony software for Softphone and other VoIP applications. Simply connect the Konftel 60W to your computer soundcard with cables provided. An optional USB adapter is also available.

OmniSound® – crystal clear sound

Walk and talk freely around your room with consistent high quality sound. There is no irritating sound clipping, damping or echoes. OmniSound® produces full-duplex natural sound as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omnidirectional transmission and three built-in surround speakers provide crystal clear reception throughout the room.
