- ▶ Racquet Ball
- ▶ Gym Floor Covers
- ▶ Volleyball
- ▶ Padding
- ▶ Fitness Centers
- ▶ Any large hard floor surface

Courtclean®

Covermaster provides the Courtclean® damp mop system to keep gym floors in great condition. Fast, simple and fun, Courtclean® is the finishing touch for gym floor maintenance. Here's why Courtclean® is part of our winning line-up:

Benefits at a glance

- ▶ Protects the floor's finish
- ▶ Saves on costly maintenance
- ▶ Minutes to clean, seconds to dry
- ▶ Slip resistant
- ▶ Works on multiple surfaces

How Courtclean® works:

- ▶ Dampen the Courtclean® towel in cleaning solution
- ▶ Wring out the towel so it is damp to the touch
- ▶ Lay the towel out flat on the floor
- ▶ Place the patented Courtclean® applicator on the towel
- ▶ Attach the towel using the fastening system
- ▶ Start walking around the court

Threats to Gym Floors:

Courtclean® helps prevent damage to your playing surface caused by:

DIRT, DUST, GRIT AND SAND: These elements can cause serious damage hardwood floors. A full team running on a dirty surface acts as sandpaper that wears away the floor's shiny finish.

WATER AND OTHER SPILLS: Liquids can cause dangerous slipping situations, damage the finish of the floor and overtime warp a poorly finished hardwood floor.

FIXTURES/STANDS: Contact points can damage the surface of your gym floor. Platforms, speakers, fixtures and seating can also cause scuffs on the floors finish. Use of a Covermaster protective gym floor cover is highly recommended.

Size:

6 ft and Weighs 29 lbs. Includes custom pad, specially designed towel, and pull rope.
