ARMCHAIR

ITEM 2202

The 1900 collection is steeped in history, with striking hand forged scrolls and rings that take their cues from the public chairs at traditional French bandstands. Since its inception back in the 19th century, the 1900 chair has passed from one designer to the next, each making it even more comfortable, ergonomic and stacking than the last. The idea is to take the collection's Belle Epoque style and transform it with bright, vibrant shades from the Fermob colour chart.
