Turbo Spec Sheet

- 1) Make and model of engine, number of cylinders?
- 2) Race weight of the vehicle?
- 3) Displacement?
- 4) RPM Range?
- 5) Does the car already have a turbo? If yes, what is the description?
- 6) What is the application of the vehicle (drag racing, road course, drifting, street driving)?
- 7) Are you running in a certain class? What are the rules?
- 8) What are your horsepower goals? To the rear wheels or crank? ET goals?
- 9) What kind of transmission?
- 10) RWD, FWD, or AWD?
- 11) Tire Size?
- 12) At what boost level do you want to make this power?
- 13) What fuel are you using?
- 14) What compression ratio?
- 15) Is this a carbureted or EFI application?
- 16) Intercooled or not?
- 17) Front mount or rear mount setup? Single or twin turbo setup?
- 18) What flange will you be using? T3, T4, or T5?

Note: If you are having a turbocharger specified for a particular sanctioned racing class, we require a copy of the rules to be sent with this form.
