## THE TRADITIONAL BEVERAGE OF SPAIN

For generations, the only way you could get the good stuff was through painstaking, time-consuming effort: someone's abuela or a tapas bar seeking out the best fruit, spices, and wine you could find, then steeping it for weeks until the perfect blend of sweet wine, juicy citrus and warming spices was achieved.

Begonia is the product of that same painstaking labor. We have taken fresh, juicy Valencian Bobal grapes and steeped their juice for months with the best citrus in the world and Mediterranean cinnamon. No shortcuts, just patience. This is the real deal—authentic, premium Sangria, without all the fuss and waiting! Crack open a bottle today and enjoy the spirit of the Spanish summer.
