Pup-Head® Lite Absorption Chart

Capacity	40 oz.	40 oz.	40 oz.	40 oz.
Dog Weight	10 lbs	20 lbs	30 lbs	40 lbs
Daily Water Intake	10 oz.	20 oz.	30 oz.	40 oz.
Daily Urination	7 oz.	14 oz.	19 oz.	30 oz.

On average dogs need about an ounce of fluids per pound of body weight per day.

On average a dog will produce approximately 0.67 oz of urine for each pound of body weight per day. Activity and health affect both intake and output.

The weight, age, health, size of a dog as well as the climate may affect these averages.
