## Hive Stand for Wooden Hives

## Materials

- A) Front landing board (bottom)
- B) Front landing board (top)
- C) Back cross brace
- D) 2 Sides

Not Pictured - Bag of screws

Step 1: Using the 2" screws attach back cross brace (C) to the side rails (D) to the straight ends.

Step 2: Now, using 1-5/8" screws, attach the bottom front landing board (A) to the side rails. The bottom piece has the angles cut in the same direction (/ /).

Step 3: Attach the top front landing board (B). The top piece has the angles cut in opposite directions (/ \). When attached it will extend above the side rails.
