3 ADD BETTA FISH AND INSTALL AQUARIUM COVER

Once you are sure the water temperature in the aquarium has reached room temperature you may add one Betta fish to the aquarium. The Beta Cube is intended for one Betta fish. Position the cover securely on the aquarium. (See figure 2.) The round holes in the cover can be used for feeding the Betta. ADDITIONAL INSTRUCTIONS

Suggested Fish and Care

This kit is intended for betta fish. Other fish species may require aeration, filtration, or a larger aquarium to be properly maintained.

FISH CARE MAINTENANCE

Feeding

Use food only intended for betta fish. Feed 2 to 5 pellets once daily, as much as the fish will consume in 2 to 3 minutes.

Water Changes

Change no more than 50% of the water once weekly. Use an Elive Betta Aquarium Siphon to easily remove water from the aquarium. Make sure that the new water being used is dechlorinated and the water temperature matches that of the water in the aquarium. Do not clean the aquarium or decorations with soaps or detergents.
