

The Bible Came from God

Use this dramatic recitation to help students learn the process of “How We Got the Bible.” It is divided into easy-to-learn sections. Rehearse the dialogue and hand-signs together, adding a portion each lesson. You may want to use this narration as a presentation to parents or other classes at the end of *My Awesome Adventure*.

Leader asks: **How did we get the Bible?**

Children respond:

The Bible came from God. (lower hands from heaven with palms open)

God showed His heart (trace God’s big heart)

To each author’s mind. (point to brain)

Authors wrote (write on palm of hand)

God’s inspired words. (lower hands from heaven with palms open)

Scribes made exact copies. (hold up the left and right hands, and match them together)

God’s Spirit (point to heaven)

Guided people to collect (pretend to stack books in one of your arms)

Sixty-six books (hold up ten fingers six times and then six fingers)

Into one. (hold up one forefinger)

Scholars (point to brain)

Translated the Bible (open hands like a book and bring to mouth)

Into many languages (“blow” hands apart and out to sides)

Including English. (move a hand as if talking)

God’s Word (lower hands from heaven with palms open)

Is perfect. (signal “A-Okay” to God)

God’s Word (lower hands from heaven with palms open)

Is true. (nod head up and down)

God’s Word (lower hands from heaven with palms open)

Is alive. (raise hands from sides to stretch outward)

God’s Word (lower hands from heaven with palms open)

Is eternal. (sweep hand from right to left across body)

Thank You, God, for Your Word! (Everyone should clap and shout, “Hurray!” as if enthusiastically celebrating God’s holy Word.)
