

## Level 5, Quarter C, Lesson 13—Review

### Bible Baseball Score Placards

Use these placards to create a scoreboard for your Bible Baseball game. Print on cardstock and cut around the black border. Punch a hole near the top of each card for hanging. You'll need three to four copies of each number.

Create a board of the running total for each team, or make a more traditional inning-by inning scoreboard (see below).

## **Level 5, Quarter C, Lesson 13—Review**

### **Bible Baseball Scorecards**

Use these scorecards to track a team's progress. As players make their way around the bases, fill in the base squares where they stop. If a player hits a single, fill in the square for first base. If the runner advances to third because the next batter hit a double, fill in the third base square for the runner and fill in the second base square for the batter. When a runner makes it home, fill in the diamond.

Depending on your class size, you may need more than one score-card per team.
