REPTILE BEDDING

PREFERRED

ACCEPTABLE

ALFALFA MEAL

- Easily digestible in the case of accidental consumption
- Natural bedding safe for carnivorous reptiles
- Bacteriostatic agent helps reduce germ and bacterial growth

FIR AND SPHAGNUM PEAT MOSS

- Holds moisture
- Promotes digging, breeding, nesting and egg incubation
- Ideal for reptiles and amphibians who inhabit tropical and forest habitats

DOUGLAS FIR SHAVINGS WITH EUCALYPTUS

- 100% organic
- Ultra-absorbent
- Contains no toxic resins or oils so your reptile enclosure stays clean

DOUGLAS FIR BARK

- Encourages natural digging behavior
- Evenly distributes heat and moisture throughout the enclosure
- Ideal for reptiles and amphibians who inhabit tropical and forest habitats

BEAKED MOSS

- Holds moisture to keep up the beneficial humidity in your enclosure
- Natural bedding provides a realistic setting

COCONUT HUSK (BRICK)

- 100% coconut fiber
- Highly absorbent
- Keeps humidity at optimal level
- Soft texture ideal for egg incubation

GROUND ENGLISH WALNUT SHELL

- Excellent heat conductor
- Attractive substitute for sand
- Ideal bedding for desert reptiles

PROSO MILLET

- Does not hold moisture
- Easily digestible if accidentally consumed
- Creates a safe, sanitary environment for desert-dwelling reptiles

TERRARIUM LINER

- Biodegradable enzyme reduces odor
- Absorbent, non-abrasive material
- Non-digestible
- Easy-to-clean
