

# Monobind Technical Support Memo

**Subject; Cortisol Values**

**Date; April 2010**

**QUESTION:**

---

Could you help me with the values to Cortisol in the morning and the afternoon, and the levels for children?

**ANSWER:**

---

Based on literature search the normal values for Cortisol is given below:

Population	Morning	Afternoon
Adult	5 - 23 µg/dL	3 - 13 µg/dL
Child	3 - 21 µg/dL	3 - 10 µg/dL
Newborn	1 - 24 µg/dL	

Please note: Normal results may vary from lab to lab.
